### TRAFFIC HALTS IN GIBBONS' HONOR

Every Wheel in Baltimore Stops Minute During Funeral

GREAT CHURCH GATHERING

Most Notable Assemblage of Dignitaries in U. S.

BALTIMORE, Md. — (By Associated Press.) — With all the splendor of a ceremony centuries old, the Roman Catholic church today laid to rest one of its oldest and most faithful servants—James Cardinal Gibbons, archbishop of Baltimore and the second American to be elevated to the cardinalate.

Archbishop John Bonzano, apostolic delegate at Washington, celebrated a pontifical requiem mass in the cathedral of the Blessed Virgin Mary with seminarians chanting Gregorian music never before heard outside the Sistine chapel in Rome during the funeral of a pope.

Archbishop John J. Glennon, of St. Louis delivered the funeral sermon.

**GREATEST ASSEMBLAGE**

The greatest assemblage of church dignitaries ever massed on this continent gathered here today for the funeral.

They came from the east and the west, from the north and the south, and from the Dominion across the border, to mourn the prelate, the American, the man. In the great procession which formed for the pontifical requiem mass were numberless priests and the mitred heads of a hundred dioceses.

By nine o'clock, an hour before the time set for the ceremony, streets surrounding the cathedral were so crowded with clergy and laity that not a square inch of pavement could be seen. At 10 o'clock the whole city, in answer to gubernatorial and mayoralty proclamation, dropped every activity for a minute in respect to a man it had numbered among its most distinguished citizens. Every motor, every street car, every wagon was directed to stop in its tracks when the clocks of the city tolled 10.

**PROCESSIONAL LINE**

At 10:05 the morning the clergy began forming in front of Calvert Hall College, diagonally opposite the cathedral for the processional. It was an impressive spectacle. Regular clergy in the colors of their respective orders headed the line and behind them came the secular clergy, followed by the monsignori, Cardinal O'Connell and Begin and Archbishop John Bonzano, apostolic delegate and celebrant of the mass. All of the higher church dignitaries wore mourning colors of purple.

Inside the cathedral, under the gilded dome at the foot of the center aisle, lay the body of James Cardinal Gibbons, archbishop of Baltimore. He rested on a purple covered catafalque, dressed in his archiepiscopal vestments, wearing on his head his archbishop's mitre and on one finger the ring that so many thousands had kissed during his life. The rays of tall white candles lighted his benign features. At the foot of the bier was the cardinal's hat of red.

**ADMITTANCE BY TICKET**

It was obvious that only a small part of the thousands who sought entry to the cathedral would be able to pass under the great portico, with its tall columns draped in purple and black. Most of the space was allotted to the clergy and admittance was by ticket only. But this did not shake the great army of mourners in their hope of attending the mass or at least massed around the great stone block of the church to witness the funeral.

Disappointed staring them in the face they stood their ground with the same determination that had been displayed by the tens of thousands who yesterday pressed their way into the church to view the body of their devoted leader.

As varied as the flock the cardinal had ministered in life was the flock that sought to minister to him in death. Men, women, the little children he loved, stood in line surrounding the cathedral. Some had come in motors some had traveled by street car, some had walked long distances but all had come for the same purpose—to show reverence to the man they all had loved.

Today really held two ceremonies. One was the great church assembly at mass, the other was the funeral service in the crypt of white marble under the cathedral. The relatives and closest friends taking final leave of one very dear to them.

Cardinal Gibbons is the seventh member of the church to be buried in this vault and to him was allotted a place on the west side. The last time the crypt was opened was in 1872 when Archbishop Spaulding was buried there.

### FENCE POST INDUSTRY REVIVAL AT DELPHOS

DELPHOS.—An industry which was established here seven years ago is due to be revived, if the proposition presented to the Community Club and business men of Delphos by those interested goes thru.

The Delphos Fence Post Co. was organized here seven years ago by J. C. Hackett, C. J. Lang, F. A. Haden, Frank X. Altenburger and Paul Snyder. The company operated for about a year, but was forced to suspend operations, chiefly because of the war.

A committee was appointed by the Community Club, consisting of J. J. Shenn, president of the Community Club, to investigate the proposition, with an ultimate view to reorganizing the company.

Few of British Force Escape From Wrecked Building

PEACE SOUGHT AMID WAR

Negotiations Planned in Interview Held at Belfast

CORK — (By Associated Press.) — An attack made this morning upon the police barracks at Ross Carbery, county Cork, resulted in serious casualties to the occupants of the barracks. Fourteen of the police are missing and it is believed five were killed.

An official report of the affair says the attack was made by civilians at two o'clock this morning. The front wall of the barracks was blown in by explosives and bombs were thrown into the interior while a heavy fire was maintained on the building.

The police held the barracks until the room in which they were concentrated took fire, when a few escaped by an upper window.

**PEACE SOUGHT**

BELFAST — (By Associated Press.) — Cardinal Logue, primate of Ireland, was interviewed Tuesday by Sir William Goulding and three other southern Irish Unionists, with the object, it is understood, of securing the opening of peace negotiations between the Irish republicans and the British government.

The interview took place at Dundalk, county Louth.

Sir William Goulding is a prominent Irish railway man, a resident of Dublin. He is chairman of the Great Southern and Western Railway of Ireland and of the Irish Railway Clearing House. He was a member of the Irish convention of 1917-18 and is a former high sheriff of the county of Dublin.

### 5,000 IDLE MEN TO RETURN TO WORK

Plants at Akron Plan to Resume Operations

AKRON.—(By Associated Press.) — More than 1,000 men will be re-employed by the Firestone Tire and Rubber Company during April, according to an announcement made today. Production will be increased nearly fifty per cent. It is expected to reach 15,000 tires a day, due, it is stated, to substantial increases in original equipment business from automobile factories which are beginning to resume work.

With the Goodyear Tire and Rubber Company's announcement Tuesday that 1,200 men would be re-employed during the next month, and with all other rubber companies here reporting increased sales, it is expected that 5,000 of Akron's idle factory workers will be back at work before May 1.

### BLAST INJURES 6

Sewer Gas Explosion Wrecks Home at Youngstown

YOUNGSTOWN.—(By Associated Press.) — Six persons were injured, three probably fatally, in an explosion of gas today which wrecked a double house, occupied by negroes, on the West Side here.

The gas came from benzol in the sewer, thought to have originated at a steel plant nearby, according to city officials who investigated. One explosion occurred in the house, and a second in the sewer under it.

The house, a two story structure, was demolished, the wreckage falling into the cellar. Windows were broken in the neighborhood about, the sewer main was ripped for a block and manholes blown out several blocks away.

The injured are Rev. C. J. Langford, his wife and three children, and Mrs. Rose O'Neill. One of the Langford children, aged three, is expected to die.

**CHECKS RECOVERED.**

KENTON.—Identified as the checks which were stolen early last Friday, when thieves blew a safe of the Wilkes Grocery Co. and escaped with \$75 cash, a bunch of signed checks was recovered from a late night train brought here this morning along the Erie railroad here. Late Tuesday by Oscar Williams, carman, was recovered.

### CRUSHED BY CAR WHEELS M'CREARY NEAR DEATH

Herbert McCreary, 33, 739 W. Wayne-st, instructor in schools provided for laboring men out of employment, suffered probably fatal injuries when run over by a cut of cars at the Third-st crossing of the Baltimore & Ohio railroad Thursday at 11 a. m.

McCreary's right leg was mangled and almost severed, above the knee. The left leg was mangled between the ankle and knee to such an extent amputation will probably be necessary. It is also believed McCreary suffered internal injuries. His back is apparently crushed.

**THROWN FROM A CAR**

McCreary was standing on top of a flat car on a sidetrack at the Third-st crossing, looking over into the yards of the Lima Locomotive works. When a locomotive engaged the cut of cars, McCreary was thrown from the car to the track and the wheels passed over his body. He was removed to the City hospital.

McCreary is a Smith-Hughes instructor and did considerable work for the government in war times. He has a wife and four young daughters. McCreary came to Lima from Baltimore, Md.

**INSTRUCTOR OF UNEMPLOYED**

When he met with the injuries that it is believed will result in his death, McCreary was making a survey of factory yard conditions at the Locomotive Works.

He has been organizing classes for the instruction of men in various vocations while they are out of employment, working with superintendent of Schools J. E. Collins.

**CALLS FOR HIS WIFE**

Superintendent of Schools J. E. Collins took Mrs. McCreary to the hospital, where her husband called incessantly for her, in his delirium. He was able to recognize Prof. Collins for a moment only.

Word has been sent to McCreary's father, a resident of College Corners, near Cincinnati. He stated he would arrive here Thursday night. Little hope is held out for McCreary's recovery.

McCreary was one of the brightest men who has been in Lima in connection with the Smith-Hughes work and vocational school work in years, according to Prof. Collins. He is a graduate of Ohio State university at Columbus.

### FOUR BOYS DIE IN KEYES' ROMANCE LANDSLIDE

Akron Youths Buried While Playing—Girl Rescued

AKRON.—(By United Press.) — A pall of sorrow hovered over East Akron today, where four grief-stricken families were each mourning the loss of a child-boy tragically smothered to death late Wednesday afternoon when a wet sand bank beneath which the children were playing, gave way, depositing 20 tons of heavy earth upon the group.

Those who died before rescuers could reach them were: Nick Lavich, 7, John Dudich, 11, Joe Zubovich, 7, and Benjamin Sanderson, 8.

May Ring, 4, only girl in the group, was rescued by her father who removed two feet of gravel which covered her.

All the children were students at a nearby school and had gone to the sand bank near the Anderson-Whipple Cement Block Factory, to play. While hundreds of awe-stricken persons surrounded the bank, firemen dug frantically for two hours to remove the bodies.

### KILLINGS LAID AT BRITAIN'S DOOR

Committee of 100 Reports on Probe of Irish Affairs

LIKENED TO BELGIAN HORROR

Brutality to Women, Children and Priests Charged

WASHINGTON.—(By Associated Press.) — Moral responsibility for the present disorders in Ireland is placed upon the British government by the Commission of the Committee of One Hundred investigating the Irish question in a 30,000-word report made public today and covering the examination of witnesses at public hearings held by the commission in Washington last November, December and January.

Declaring that the commission was "under the disadvantage of lacking the official British side of the case," except as it was gathered from documents presented to it, the report declares that "the Imperial British army in Ireland has been guilty of proved excesses, not incommensurate in degree and kind with those alleged, by the Bryce report on Belgian atrocities, to have been committed by the Imperial German army." The Bryce Commission, it pointed out, was similarly handicapped.

**"INNOCENT SLAIN"**

Summing up its conclusions that "British forces which acting contrary both to all law and to standards of human conduct," have instituted in Ireland "a terror," the evidence regarding which seems to prove that:

"The British forces in Ireland have indiscriminately killed innocent men, women and children; have tortured and shot prisoners while in custody, adopting the subtleties of 'refusal to halt' and 'attempting to escape'; and have attributed to alleged 'Sinn Fein Extremists' the British assassination of prominent Irish Republicans."

"The means of execution of the Irish people have been conducted by the burning of factories, creameries, crops and farm implements and the shooting of farm animals. This campaign is carried on regardless of the political views of their owners, and results in widespread and acute suffering among women and children."

**CASTLE REPORT**

Regarding casualties, the commission says that it is justified in concluding that "not more than 600 of the British have been killed in Ireland since May 1916 to December 1920. These 600 casualties would seem to have occurred in a force of 75,000 during a period of four and one-half years. It is pointed out, at the rate of not more than .26 of one percent per annum."

On the other hand, according to lists compiled by the Irish Republican government and submitted to the commission, more than 200 unarmed Irish civilians were killed by the military and police during 1920 alone. This number, it was said, included six women, 12 children, 10 old men and two priests but did not include persons killed in the fighting. The commission says it does not vouch for the exactness of the figures but "direct testimony," it says, showed the killing of civilians in 1920 ran into "many hundreds."

The testimony attributed to the British forces approximately 45,000 deaths, including "wreckage of property, robbery, murder of citizens, brutality to priests and women and children, and indiscriminate flagging." Many of the raids, it was said, were made at night by "members of the British forces dressed in civilian clothing."

Stress is laid upon "the moral consequence to the Imperial British forces" of the British government's military policy in Ireland. License instead of discipline, the commission says, now prevails among the troops. "Citizens of the Irish Republic," are held blameless for "incidental accidental and disciplinary casualties in the British forces, and for casualties incurred under circumstances of general violence and disorder." Many of the excesses of the 75,000 British troops are attributed to the incitement of the fear of assassination in the soldiers' minds by their superiors.

### FIFTY CASES OF PURE PACKED BOURBON FOUND IN LOAD OF CABBAGE

NEW YORK.—Night Zeephyra, flitting playfully about, zapped to the nostrils of a policeman early today the scent of pure bourbon whiskey.

Approaching a huckster's wagon that stood at the curbing a block away, the policeman found it loaded with cabbages. He debated; the odor persisted; he investigated.

Behind the cabbages he said he found fifty cases of bottled in bond whiskey. Five men, the driver of the truck and four others who met him, were arrested charged with illegally transporting liquor.

### SPLIT ON TAXES, HOUSE RECESSES

Ohio Legislature's Lower Branch Adjourns Till April 18

DAVIS CODE VICTORY SEEN

Senate Votes on Reorganization Measure Wednesday

COLUMBUS.—(By Associated Press.) — The taxation problem was left in a tangle in the house of representatives when that body recessed last night until April 18. Many members expressed the belief that the legislature will be unable to come to any agreement on the submission of a permanent tax program, although an effort will be made to adopt the program of the citizens' taxation committee in an amendment form after the recess.

After wrestling with the problem all day Wednesday, the house was unable to agree either on the proposed constitutional amendment submitted by the house taxation committee, or the proposal suggested by the governor's special taxation committee. Neither of the proposals came to a vote.

**AMENDMENT MADE**

An amendment by Representative Fouts, of Morgan-co was made to the proposal of the house taxation committee which would bar all possibility of classification of property for taxation, providing that any exemption from the uniform rule would have to apply to real estate as well as other classes of property. This it was said, would nullify the purpose of the proposed amendment. With this amendment in, no further attempt was made to adopt the committee's proposal.

Representative Dunn, of Wood-co, then introduced the governor's proposal which provides for the taxation of property according to value, or substituting in lieu therefor an income tax. It does not make an income tax law mandatory as did the original proposal from the governor's tax committee. This proposal will be offered to the house for adoption when it returns. If the house fails to adopt it, then it is said the legislature will be ready to quit without attempting any permanent solution of the taxation problem.

The debt limitation proposal which passed the house earlier in the session as well as the Taft bill to allow tax districts to exceed the limitations of the Smith law for a period of three years are still pending in the senate.

**REORGANIZATION**

The senate committee on administrative reorganization is expected to recommend for passage the governor's reorganization bill Friday morning before adjourning for a week. The bill, it is said, will come to a vote in the senate next Wednesday. The bill is expected to be passed in the senate substantially as it passed the house.

Senator J. F. Burke, leading the opposition to the passage of the bill as an emergency, said today he had little hope of defeating the emergency. It is said that not more than four votes will be recorded against the emergency.

The senate will continue today on the passage of senate bills and will adjourn until next Monday.

The senate yesterday passed the McCoy bill, prohibiting physicians from prescribing beer, wine or whiskey for medicinal purposes, after the emergency clause had been defeated. The McCoy motion picture bill to prohibit the exhibition of films depicting crimes was considered in a public hearing before the senate judiciary committee last night. Action on the bill is expected to be taken today in the committee.

The senate passed the bill to establish a state department of Americanization. The bill now goes to the governor for his approval.

### Ex-Emperor Sends Ultimatum to Head of Government

TROOPS GOING OVER TO HIM

All Europe Reported Stirred by "Hapsburg Peril"

(BULLETIN)

VIENNA.—(By Associated Press.) — It is unofficially reported here that Admiral Horthy, the Hungarian regent, has resigned and will let events take their course, but the report is not confirmed.

It is also reported that former Emperor Charles is on the way to Budapest from the frontier and that the army adhering to his cause is on the move.

PARIS.—(By United Press.) — Former Emperor Charles, stating everything in a desperate effort to regain his throne, today seized control of western Hungary, according to a dispatch from Vienna.

The Vienna dispatch crediting advice to the Volks-Zeitung, said the army in West Hungary had gone over to Charles and that the populace was rallying to his support.

Charles was reported to have sent an ultimatum to the Hungarian government at Budapest, demanding the abdication of Admiral Horthy, the regent. Embassies sent by Horthy to negotiate with Charles, joined the former emperor.

**ASSUMES POWER**

In West Hungary, Charles assumed full power under declaration of a military dictatorship, the dispatch said.

Count Julius Andrássy, sent originally to Steinmayer as a government envoy, was reported to have joined the monarchists and to have undertaken negotiations as Charles' spokesman with other Horthy representatives headed by Minister Czetz. As a result of these negotiations, the Volks-Zeitung said, there was a possibility that Admiral Horthy would yield control to the former emperor.

In the Steinmayer region there was no doubt of the monarchist sentiment.

**PEASANTS IN PROCESSION.**

Peasants came under the banner of a great procession to honor their ruler. Portraits of Charles and the Empress Zita were carried alongside Holy images. Church and monarchist banners were intermingled above the cheering crowds passing the residence of the Bishop Count Miklos where Charles is stationed.

Count Andrássy appeared on a balcony, the report said, and harangued the excited crowd on behalf of the former monarch. Great cheers greeted the monarchist conditions were far better when the Hapsburgs were in power than they are now. AKA, EUROPE STIRRED.

LONDON.—(By United Press.) — "The Hapsburg peril" was reflected in all Europe today. Throughout the continent there were hasty conferences on the attempt of former Emperor Charles to return to the Hungarian throne. Military actions by outside nations were a possibility. Charles' success, it was believed, would be the signal for the wholesale release of noble exiles from Switzerland, perhaps even a return of a Hohenzollern to Germany, which is now in turmoil.

King Constantine's successful appeal to his people was believed to have brought about Charles' spectacular effort to renege himself.

Evidence here was that Charles was keenly disappointed that his return to Hungary had not resulted in an instantaneous uprising by his people.

Even after private conferences with monarchist leaders had shown that the time was not ripe for his return, he persisted.

His first effort was to obtain the support of General Baron Leher, commander of the west Hungarian forces.

## DID YOU SEE HER? THE TAM GIRL

Women Wild Over New Headgear and Many Get One

ANOTHER CHANCE FRIDAY

Here's How to Secure Alluring Top-piece

(BY SILKY MOLLIE)

Priscilla Dean sure has my sympathy and I know just how she felt when she was a fugitive from justice, (in the picture, of course,) for haven't I been pursued up and down Main-st like a criminal all afternoon? And take it from me, it's no easy matter to elude a bunch of feminine Sherlock Holmes' when they're on getting one of those fifty Priscilla Dean Tambs they're giving away at The Lima News office.

Had weather makes no never-mind to a woman who starts out to get something. I left The News office about 2 this afternoon and got as far as Main-st before someone accosted me, but this young lady was so excited she forgot the words, but she made a stah at it, anyway.

"Why you're the girl with the mysterious tam—I mean you're Silky Moll, er—er, the mystery Tam Girl," she stammered. But I assured the lady that she was wrong and told her to try again tomorrow.

"RIPLES IN LILIES." Another enterprising young lady ran up to me, all smiles and dimples and uttered, "Oh, I believe you're it." But I had to dash her hopes of getting a good looking tam like mine, by reminding her of the fact that if I was "it," she didn't have a Lima News in her head. Hate to disappoint 'em that way, but rules is rules.

This afternoon I just wandered around looking in the windows and wishing I could buy all the things they have displayed. At every window was a group of girls intent on the same thing I was doing, I guess. A few of them called me as the Tam Girl and were given their coupons. Others forgot the words and just floundered around a while and then left me, but the ones who got it off straight and had their papers "in everything," seemed real glad because my tam is attractive, and I don't blame 'em for wanting one.

On Friday afternoon we're going to have some more fun. This time I will visit Lima's leading stores, about on this order.

**FRIDAY SCHEDULE.** Between 1:30 and 1:40, I will leave The Lima News office on East High-st, walk north on Main-st, and will probably visit Carter & Carroll's, Grog's store, The Lelzer Co., and then on down to Feldman & Co.

After spending a few minutes in each of these stores, I will enter the Deisel Co. department store and make a few purchases, then over to Blum's where I will buy a few things.

The new Public Store, between High-st and the square, will be my last stop, before I return to the News office.

Remember, girls, you must have a copy of Wednesday's News in your hand when you accost me, and you must say these words:

"You are the News Mystery Tam Girl."

If you do this correctly, you will be rewarded with a coupon and a pass to the Lyric theatre, where Priscilla Dean's new starring vehicle "Out Side The Law" opens next Sunday. Friday is the second and last day of the contest, and only a limited number of coupons can be given out, so step lively, girls, and pursue the villainess. That's me.

## BACK BROKEN, OPERATION PERFORMED EXPECTED TO SAVE LIFE OF H. FISHER

Condition of Harold Fisher, 25, of 410 N. McDonel-st., operated on by Lima surgeons at the City hospital Tuesday night after suffering a broken back last Friday when he fell from a foot bridge at Lima Lake, was reported about the same Thursday morning.

Physicians are watching the outcome of his case with interest, but so far the young man has failed to show any signs of growing worse or better.

Dr. Carl Camp, professor of nervous diseases at Michigan University, Ann Arbor, Michigan, was in Lima in consultation with local physicians. Fisher's courage is one of the factors which inclines attending physicians to believe that he will recover if no complications arise.

## OFFICERS ENGAGE IN ARGUMENT

One Dropped After Safer and Chief Investigate

Charged with disorderly conduct while arguing with Patrolman "Mike" Watkins, Officer "Mike" Laughlin, acting night sergeant of police, was dismissed from the department after pleading guilty to the charges Thursday morning at a hearing before Safety Director Fred Fisher, according to Chief of Police Roush.

Laughlin, according to Chief Roush, accosted Watkins near the court house on N. Main-st, Wednesday morning shortly after 4 o'clock, following the policemen's dance at Memorial Hall.

Officer Watkins, according to Roush, attempted to settle matters peacefully and urged Laughlin to stop the quarrel. Instead, it is alleged that Laughlin pulled a revolver from his holster and, grabbing the muzzle, was in the act of hitting the other policeman in the head when Watkins hit him in the face.

A report of the encounter was made to Roush, who investigated before filing charges.

Charges were placed against both men, but Safer Fisher found Watkins innocent and he was restored to duty. Both men were off duty at the time of the trouble.

Roush said that the argument resulted from a grudge over the switch of the officers to different jobs on the force.

**HIGH COST OF "FLOPS" TAKES HEAVY FLOP**

CHICAGO — The high cost of "flops," which during war-time prospered reached 25 and even 50 cents, is down to 25 and 15 cents. All of which means that it is cheaper to be a "gentleman of leisure" now in Chicago since 200,000 unemployed have joined the order.

"The nickel flop of ante-bellum days soon will be back," prophesies Dr. Ben L. Reitman, medical director of the Hobo College.

"The best flops of a man has room to take off his shirt are down to 25 cents, and if the guest is willing to go out in the corridor for room in which to get out of his shirt he need pay only 15 cents."

Prohibition and the approach of Spring will send the prices even lower, in my opinion.

**CAPT DAVIS DEAD** MARIETTA, O. — Captain Stephen D. Davis, 74, one of the oldest steamboat captains on the Ohio river died here this morning.

## MOON RULED WIFE HUSBAND SAYS

Chicago Man Makes Counter-Charges in Divorce Suit

CHICAGO. — (By International News Service.) — The moon's a poor thing to regulate a Chicago household by, Judge Holmes ruled recently in the case of Joseph Tranka, charged with non-support. Tranka admitted having fled his comfortable South Side home, but submitted the following extenuating facts:

If the moon shone in full-orbed glory, he said, indications were that he would get his meals on time the next day. For hours Mrs. Tranka would bathe in the magical beams and on the morrow her enthusiasm for work was marvellous to behold.

Washing day was regulated by the planets, he declared. Saturn, Jupiter, Mars, Mercury, Venus and Neptune ordained by their appearance in the heavens the days when his shirts should be washed.

And far off in the ether were nebulae, comets, meteors, constellations, alien suns, fixed and variable stars, which made Mrs. Tranka's affection likewise variable.

"I couldn't stand it," said Tranka. "The moon was her outboard board and the stars indicated all the changes in our household habits."

"Every morning she went to see a fortune teller. She would return too late to prepare my lunch. At night she would leave the dishes unwashed to watch the heavens."

"One day the moon would be full. That meant everything would be peaceful the next day. The house was cleaned, the meals prepared and the dishes washed."

"But more often the fortune teller would tell her to watch for a quarter or half moon. Those were the days I learned not to come home."

Mrs. Tranka said her husband left her last week after quitting his job. The latter told the court he was driven to it, but promised to go back and provide for her.

## SHAFFER INJUNCTION SUIT AGAINST CITY IS UNDER ADVISEMENT

Argument for making permanent the injunction in the case of Herbert Shaffer against the City of Lima, was argued before Judge F. C. Becker Thursday.

Shaffer, a property owner near the North-st bridge, had filed a petition in court to permanently enjoin the improvement. A temporary injunction against the city and Ora Green, contractor, had been granted by Judge Becker.

Attorney Paul Landis, counsel for Shaffer, argued that it was not according to law to tear up the sidewalk in front of his clients' property and that the only way the property could be secured was by condemnation proceedings, with the proper payment of damages.

City Solicitor Garling held the improvement was for the benefit of the public, that the road had been in use for the past 25 or 30 years and that when completed, it would be part of the road repairs. He argued a permanent injunction could not be had which would, in any way, interfere with the work.

Judge Becker took the case under advisement.

## NEED ENGINEERS TO SPEED WORK

Lack of Men Will Delay Improvements, Server Says

It is a physical impossibility for the city engineering department, with its present personnel, to give expert supervision to city construction work now planned unless a large part of it is delayed, according to Server, Director Elmer McClain. Street paving will suffer, he says.

"If all the construction work planned is started, the department will not be able to give the work the proper attention," McClain said. "No construction work shall go on without engineering supervision and as it looks now some of the work will be delayed."

Three bridges are to be built; we have nine sewer projects, five street paving projects, 700 sidewalk notices have been served and besides all that there is street repaving and city platting to be done by the engineering department.

"The relief sewer work is most important and must be done first. Next comes the bridges, for while Metcalf-st is blocked the chief artery between the north and south sides is severed and there is more traffic over the Metcalf bridge than any other in the city. While bridges are closed fire protection is greatly lessened."

"Of course, there will be emergency work, but there seems to be no doubt but that street paving will suffer unless the engineering force of the city is enlarged," McClain said.

## BOUND, GAGGED BY THIEVES, CLAIM

George Lentz Loses \$17 to Robbers, Tells Police

Declaring that he was bound and gagged by two hold-up men in his home at 3 o'clock Thursday morning, George Lentz, 423 S. Pearl-st, appeared at police headquarters eight hours later and reported the robbery to Chief of Police O. J. Roush.

According to his story, he heard footsteps on the stairway leading to his room. He was alone in the house, his wife being away on a visit.

Two masked men appeared in the doorway of his room, he said. He started to get up, when one of them rushed to his side and threatened to shoot.

Grabbing him, they tied a pillow case around his face, stuffing one end of it in his mouth. Then with shoes they tied his arms and legs, rendering him helpless.

While one stood guard over him, the other ransacked the house. Over \$17, he said, was taken from the pockets of his trousers.

# WARTIME SHRINKS NOVACHOS' CASH

Wife in Greece Failed to Get 650 Drachmas Sent

PAYS \$97; SETTLES FOR \$50

Suit Against Express Company is Settle by Parties

Echo of war times and depreciation in value of money in Europe is reflected in dismissal of the suit of Theodore D. Novachos, against the American Express company, in common pleas court Wednesday.

Novachos, a Greek, went into the office of the American Express company, Lima, during the war and had his wife sent 650 drachmas to his wife in Greece.

Reference to rates of exchange by the company indicated at that time the drachma, the money of the Greek country, was worth 15 cents in American currency, or \$97.50, the amount he wished to send.

With the expense for sending, Novachos laid down to the express company a total of \$98.45, with a promise his wife would be delivered to his wife in Greece.

WIFE FAILED TO GET MONEY

The office here took the matter up with their bank at Athens, Greece, authorizing payment of the money. Months went by and one day Novachos dropped into the office of the express company here, saying that his wife had not received a penny of the money sent.

The bank of Athens, however, conferred with the bank in Lima, it took some months for them to reply, owing to poor mail service. They said the address was incorrect and that the person to whom the money was addressed could not be found.

In the meantime Novachos asked that his money be returned. This could not be granted, for the express company realized that in case the woman should go into the bank there, she would be paid the money sent her.

They informed him that just as soon as they received word from their bank in Athens to cancel payment of the claim he would receive the money. This required months and finally a cablegram was necessary to inform the express company that the Athens bank had cancelled payment of the claim on December 20, 1920.

In the meantime Novachos had instituted suit in common pleas court for return of the funds.

DRACHMA DEPRECIATES

Legal counsel for the express company informed Novachos' attorneys that the drachma had depreciated in value somewhat since then and that the company would then pay but \$47.50.

He presented law and former decisions on foreign exchange to substantiate his claim. However, after an investigation made by them, they offered to settle Wednesday for \$50.

The offer was accepted by the express company and the journal entered was filed before the case came to trial. When the Greek pays his attorneys he will probably have little of his \$100 left as an experience with American ways of doing things.

## HIGH SCHOOL CLASS PLAY, FRIDAY NIGHT

Final rehearsal for the Senior Class play, "Nothing But the Truth," will be held in the Central High auditorium Thursday evening. The play will be presented Friday night, starting at 8 o'clock.

Tickets have been on sale this week and a large number of pupils are counting on attending the play. The cast has been working hard under the direction of Miss Zella Foster, head of the English department.

The plot is humorous and clever. The hero makes a wager with a friend that he can tell nothing but the truth for a stated period. The complications that he gets into by telling the truth keep an audience interested the entire performance. The love story woven into the play is one of the best that has ever been presented at Central High.

The cast is an experienced one and the majority of them have made hits in other high school productions.

## URGES CHANGE IN TEACHING PLAN

County School Head Suggests Conversational Method

A change in the method of teaching "live" foreign languages is being advocated by C. A. Arganbright, county superintendent of schools. He states that the conversational plan is the most satisfactory and unless it is adopted by high schools generally it will work a hardship on the students who attempt to continue their language work in a college.

Under the conversational method the pupil learns the language in the same way a child learns to speak its native tongue. The eye and ear are both trained and wherever possible the lesson is accompanied by a physical action demonstrating it. By teaching the languages in this natural way, the lessons do not become tiresome and change from mental drudgery to more or less of an interesting game.

Where the old method is followed and constructions are emphasized, only those peculiarly adapted to the absorption of foreign languages are able to master them in anything like a satisfactory manner. Even those who seem to make the best showing find themselves unable to speak with natives of a country, whose language they have studied, when the opportunity offers. They can read the language only and have not learned how the words sound in a conversation.

According to Arganbright, the need today is not only for those who can read the foreign languages, but also for those who can speak them. As our relations with other countries become more important, this phase of language instruction will become more and more necessary. Immediate steps toward the installation of the conversational method of teaching languages should be taken by all school boards if the greatest degree of proficiency is to be attained.

## SON KILLED SHUR, FATHER SAYS

Akron Man Denies Charges in Boy's Confession

AKRON—(By Associated Press)—County authorities today prepared to press a charge of first degree murder against C. W. Smith, held with his son, Charles, 19, and alleged wife, 19, for the killing of Peter Shur here October 2, for the alleged purpose of stealing \$4,200 which the murdered man had in his possession.

Decision to press first the case against the elder Smith followed a dramatic scene in the county prosecutor's office yesterday when the son accused the father of the murder. The father, the boy confessed, struck down Shur with a hatchet. As the youth continued his dramatic confession, his third since the arrest, the father sat by with a grin on his face. In the others the boy said he wielded the hatchet.

"Dad, dad, don't you see I've got to tell," the son cried.

"They'd convict me if I didn't. I've tried to protect you. I've told many stories, but they've broken them all down."

"Boy, you told the truth the first time when you admitted you swung the axe that killed Shur," was the father's reply. He maintained that statement through severe questioning.

# DAUGHERTY TO ACT ON AMNESTY

Soon to Decide Course as to Political Prisoners

WASHINGTON.—(By United Press).—Attorney General Daugherty is considering making recommendations on the question of a general amnesty for all political prisoners, he said today.

If he decides on such action, the case of Eugene V. Debs probably was included with others and not treated separately, as was originally Daugherty's intention.

Daugherty said his decision would not be made until he has had time to confer with members of the senate judiciary committee which is considering a resolution for a general amnesty and it is possible that he may withhold action until congress has registered its opinion on this measure.

Senators Sterling, South Dakota, and Senator King, Utah, had talked with him informally on the amnesty resolution, Daugherty said. Before or shortly after the special session of congress opens, Daugherty expects to meet other members of the senate judiciary committee and get their opinion before he takes any action of his own.

Daugherty made plain that he has not made up his mind what his recommendations will be concerning Debs or any other of the political prisoners.

It was indicated, however, that his recommendations to President Harding would probably be held up some time. Had the Debs case been considered by itself, recommendations on the pardon of the socialist leader would have gone forward soon.

Daugherty said that he had laid down any conditions that Debs must live up to obtain a pardon, when he talked with the socialist leader here last week.

Representatives of these workers were called to meet with the road officials this morning, in an effort to reach an agreement on the question of wage and salary cuts, which are to go into effect April 20.

The company's plan for the conference, made public March 17, called upon the workers to meet with the officials and agree "as to what constitutes just and reasonable conditions of pay in the light of present conditions."

Conferences will be conducted by the officials with other classes of employees until April 16 when the final meeting will be held with representatives of the supervisory forces.

## Easy For Thin People to Put on Flesh and Gain Weight

It's such an easy matter nowadays for thin, weak, scrawny people to put on good, healthy, solid flesh and become plump and graceful that one often wonders why there are still so many people who prefer to be "all skin and bone," ungainly and unpleasant to look upon.

Physicians have long known that whoever could discover a remedy that would cause the food that one puts into the stomach to turn into good, rich, flesh-making blood instead of going to waste, would also discover how to put healthy muscular flesh onto thin under-nourished people and this has now been accomplished.

If you are thin, under developed, nervous, weak, or lack vigor and vitality, you can secure at any good pharmacy at moderate cost, a ten days treatment of EVANS' TRIPLE PHOSPHATES, a new combination of flesh producing, muscle building, strength creating elements that is guaranteed to put good, solid, lasting flesh on your body and make you strong, healthy and vigorous, or money back.

Physicians who have watched the results of the Evans' Triple Phosphates treatment are astonished at its rapid action—often in a month five to ten pounds of desirable weight is gained. Hunter's Drug Stores and Butler's Drug Store have agreed to supply readers of this paper with Evans' Triple Phosphates and to guarantee it to do just what is claimed for it or money returned.—Adv.

# Pointed Facts From the Home of Life-time Quality Furniture

Neuman-Kettler does NOT sell ordinary "price" or "discount" cheap goods. This kind of merchandise lasts so short a time that it is dear at any price. When you see Neuman-Kettler advertising Life-Time QUALITY Furniture at a special discount, you KNOW it is better merchandise—a real investment. Our prices are a challenge.

We DO make a "face" about truth in advertising; when you see it in our ads, you KNOW it's so. We practice truth as well as preach it. Our 25 years of satisfied customers speak for us.

Here is another fact:

Our furniture is carried on ground floor, second and third floors, of two buildings at Nos. 232 and 234 N. Main street. No furniture is carried below the Ground Floor, therefore not subjected to dampness and liable to damage before it is sold. We have six large floors of furniture, each from 15 to 200 feet deep.

And get this: We offer discounts right now that are BELOW the present net retailing prices. For example, many of our prices are down to less than the cost to manufacture the goods.

And when we advertise a full 45-pound mattress, you KNOW it is full 45 pounds, not 35 or 40. Our mattresses like our rugs are kept on the second floor, where they are always dry and sanitary.

When buying furniture remember this: You would not expect to go to a Drug Store to buy furniture, nor to a Hardware Store to buy Dry Goods. When you buy furniture, go to people who know the furniture business, how to buy good merchandise and how to sell merchandise that harmonizes; where you are not only sure of satisfaction, but sure of a decided saving in price. Shrieking, clashing, hodge-podge isn't good furniture; dabbling in every line and making a specialty of none is not good merchandising; buying better-kelter in not good buying. Buy furniture from a furniture store.

## 20% to 30% Discount On Both 1920 and 1921 FURNITURE

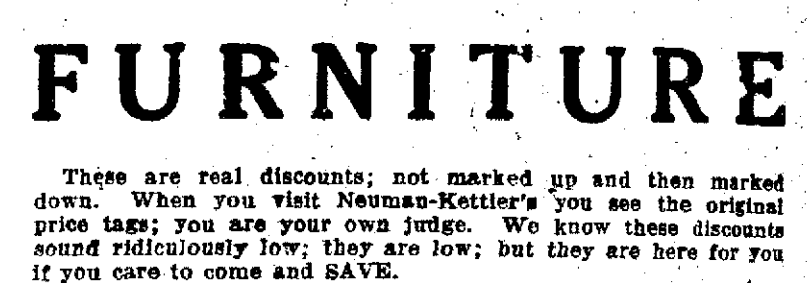

These are real discounts; not marked up and then marked down. When you visit Neuman-Kettler's you see the original price tags; you are your own judge. We know these discounts sound ridiculously low; they are low; but they are here for you if you care to come and SAVE.

## WAGE FIGHT OVER HOG REMEDY

E. A. Brennenman, Dayton, Arrested at Wapakoneta

### CHARGE MISREPRESENTATION

Carters of Wayne-tp Takes Trouble Into Court

WAPAKONETA.—(Special)—Auglaize co., as the hotbed for a fight over the qualities of a hog remedy, yielded to Mercer co. Wednesday afternoon when Sheriff George Betz of the latter community, arrested E. A. Brennenman, Dayton, at the Central hotel as he was supping and took him to Celina to face a charge of misrepresenting the remedy.

Brennenman is charged in an affidavit sworn out by L. W. Stewart, state food and drug representative with representing "hogme" to be a cure for hemorrhagic septicaemia. He is one of the associates of Dr. D. J. Nolan, the originator of the remedy who is attempting to put it on sale in this and other nearby counties.

For weeks Auglaize co. has been the hotbed of strife over this case. County Agent Andrew, on advice from farm journals and the state farm bureau federation, waged a fight against Nolan and his associates, making allegations against the stuff Nolan has friends and he has been putting up a determined fight to establish the remedy's curative power. Many states in which Nolan operated kept information concerning the remedy pouring in here in lively fashion.

It would seem that the fight may terminate in Mercer co. courts, where Nolan and his associate, W. L. Schofield, New York, have gone to defend Brennenman. Subpoenas were issued for the doctor and Dr. H. J. Schmidt, New Bremen, the county agent for the medicine.

After a week's shut-down, street lights here are again in operation. Damage at the municipal light plant was equipped with a new commutator.

## Elderly People Need This In Medicine Chest

To relieve chronic constipation, always keep a bottle of Dr. Caldwell's Syrup Pepsin handy.

NEARLY all people as they advance in age suffer from chronic constipation. Many, however, are indifferent to the laxative they use, on the theory that "they are all alike." That is a great mistake.

Dr. Caldwell's Syrup Pepsin, for example, is a mild, gentle liquid laxative, and it does not lose its effect with repeated use. It so trains the bowel muscles that in time medicines of all kinds can be dispensed with.

A sixty-cent bottle of Dr. Caldwell's Syrup Pepsin will last many months. The prescription was written thirty years ago by Dr. W. B. Caldwell, a well-known family doctor, who is himself now in his 82nd year and can appreciate what chronic constipation must mean to elderly people; how it brings on headaches, colds, loss of appetite and sleep, heaviness and a general dull feeling.

Every home that has an elderly man or woman should be provided with a bottle of Dr. Caldwell's Syrup Pepsin. Eight million bottles were bought at drug stores last year. It is a truly wonderful constipation remedy.

## PUBLIC DRUG STORE NAMED DISTRIBUTORS OF SYROLA IN LIMA

New Link in Great Drug Chain To Be Home of Famous Medicine Here

"Syrola will be distributed in Lima by Thompson's Drug Stores." This announcement was made today by Mr. Knox who will be located at the Public Drug Store, 142 North Main-st., beginning Saturday, April 2nd, to explain the new medicine Syrola.

"The spirit of enterprise that one notices everywhere in Lima, I believe is most apparent in the progress of the Thompson chain of drug stores," Mr. Knox said. "Only complete public confidence could admit of such success, and quite naturally I am happy to place the distribution of Syrola in such competent hands."

"I am going to prove to you Lima folks while in your city that common sense and this simple herb medicine will make your stomach, liver and kidney disorders vanish like a bad dream, and for that reason will be located at the handsome new Public Drug Store, 142 N. Main-st., to explain the nature of Syrola to those who call."

"Your stomach, liver and kidneys should be the basis of a keen mind, a nerve of steel and entire freedom from bodily pain. It makes little difference if you are working out-

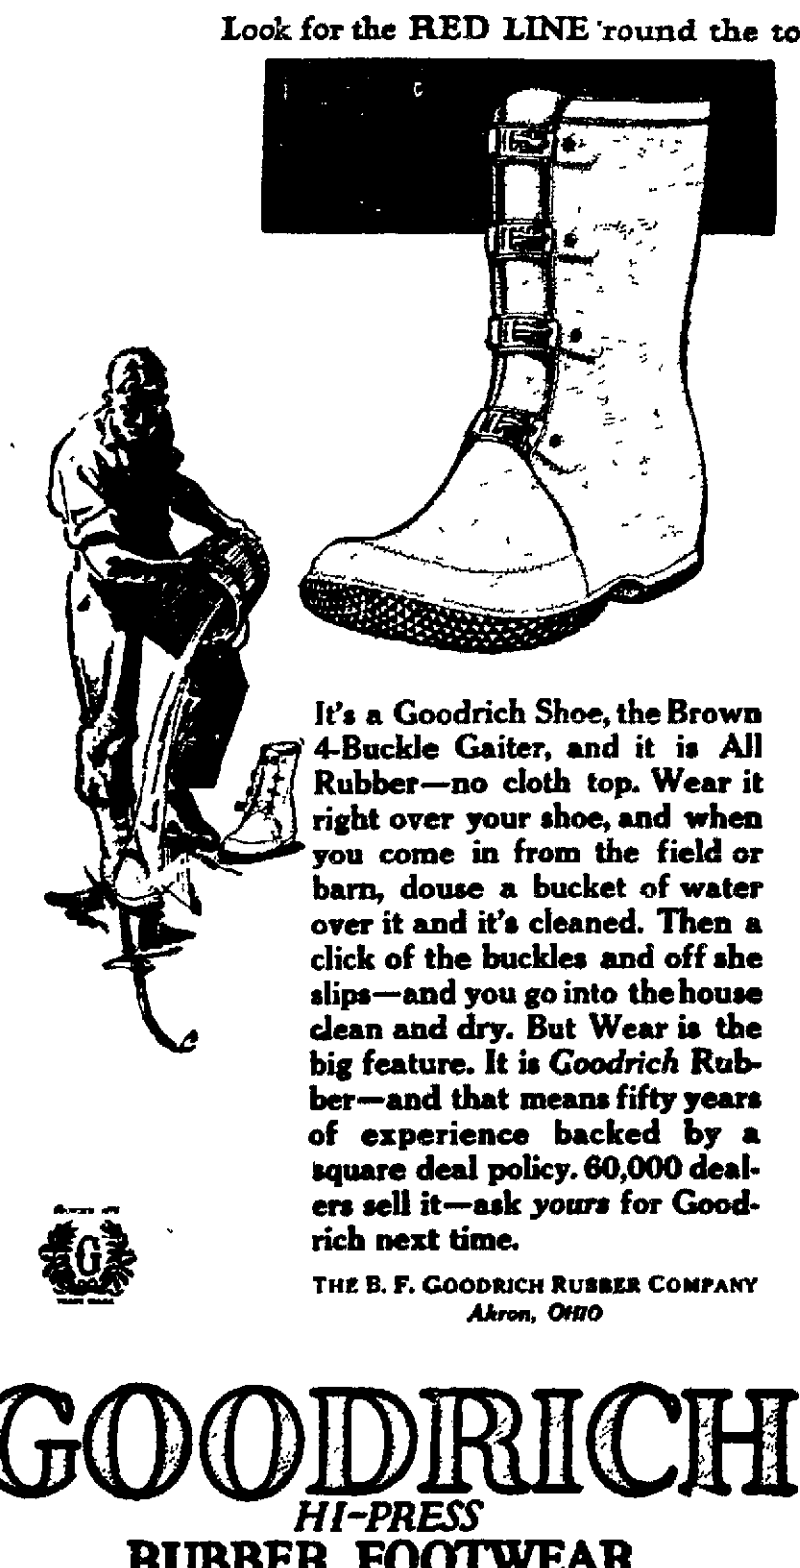

doors or in an office, if your digestive organs are out of order you are likely to have a general breakdown.

"The modern break-neck speed of living, the stress of making money and hurriedly eaten meals which upset nature's plan demand that something take the place of ordinary recreation required by nature. Syrola fills that need."

"Often times men and women do not recognize the danger signals which flash their S. O. S. in certain disorders. To them bad breath, belching, dizziness, spots floating before the eyes, heartburn and a dull, droopy tired feeling, especially in the morning, mean nothing until real peril is at hand. Sick headaches, nervousness, irritability, pains in the sides, back and a desire to be constantly on the move are symptoms that the stomach has been overworked."

"Quick lunches, cold meals and indigestible food have done their usual damage and the stomach is in such a condition that it cannot recover unaided. The only solution is an unbuilding process—a tonic that will tone up the whole system. Syrola does just that."

Mr. McLeod or Mr. Knox will be located at the Public Drug Store 142 N. Main-st. beginning Saturday, April 2nd, to explain Syrola to those who call—Adv.

## Lima Now Has Largest Music Store In State

The reason for the large growth and success of this enterprising concern, is that they have always sold the same pianos lower than other dealers.

When Story & Clark pianos were selling from \$300.00 to \$350.00, The Maus Piano Company sold the same pianos at \$175.00 and \$190.00. When Packard pianos were selling in this territory for \$350.00 and \$400.00, they sold them at \$190.00 and \$245.00.

Robert M. Cable pianos are and have been sold at \$300.00 and \$350.00 and their players \$550.00 to \$600.00; while The Maus Piano Company have sold and are selling them at \$175.00 to \$225.00 and their player pianos at \$100.00 lower than any other dealer in the State.

When other dealers were asking \$700.00 to \$750.00 for Chickering Grand Pianos, The Maus Piano Company sold them at \$450.00 and \$500.00. Today The Maus Piano Co. are selling GULBRANSEN PLAYER PIANOS \$100.00 lower than any other dealer in the State.

## DAVIS IS ATTACKED

WITHOUT going into the merits of the case in this presentment, the fact remains that the opposition stirred up by Governor Harry L. Davis with his state reorganization bill, with an emergency clause attached and which has passed the House, is beginning to assume proportions that are by no means small within his own party.

Following a severe arraignment of the Governor's "ripper" bill and emergency clause idea by United States Senator F. B. Willis' newspaper at Washington Court House, Fayette-co, by Forest Tipton as editor and who was formerly secretary to Willis when he was Governor of Ohio, other representatives of the G. O. P., emboldened by the Tipton opening, are adding their voices and their protest to the storm that appears to be gathering.

Among the latest of these is Senator J. F. Burke, of Elyria, who not only sees danger ahead for Davis, but the Republican party as well. Burke appears to have been fired up by the Davis charge that evil and sinister influences were fighting his reorganization measure. The Senator from Elyria challenges that statement and defies Davis to name one single evil influence that is making a fight on the reorganization measure.

Burke is the "from Missouri" sort of Senator, who brands the Davis statement as absurd and false and which has raised in his mind a question as to whether the Governor ever saw the interview purported to have come from him. The arraignment of Governor Davis and his reorganization bill by Senator Burke is severe and caustic and removes all doubt, or should remove it, that opposition to the reorganization of the state government and cramming an emergency clause down the throats of the electorate is prompted by partisan feeling, since Republicans are attacking it.

Governor Davis' plan of discharging competent and experienced men from state positions and filling the places with inexperienced men is decried not only by Senator Burke, but by large numbers of people, Republicans as well as Democrats. Opposition that has developed against the Davis plan is arousing the entire state, it would seem.

## HEEDING AN APPEAL

REQUESTS made by city officials and the Chamber of Commerce that Lima property owners having outside work to be done, should give contracts at once, to aid the unemployment situation, is bearing fruit. The manner in which citizens began the work of cooperation is more than pleasing.

On every hand, in most any part of the city, one can hear the welcome sound of hammer and saw, where changes and improvements are being made and men are employed. Concrete workers are engaged in many places in putting down walks or constructing driveways from the street to automobile garages. And the number of garages that are being erected is another fine form of first aid to unemployment.

It is estimated that many thousands of dollars will be paid out during the spring season in improvements among Lima residences and business properties. This, with new construction planned and the campaign of street and sewer work to be prosecuted by the city, will do much.

to relieve the situation while manufacturing is readjusting itself.

In every particular, Lima is more fortunate than many other cities of this and other states, in the matter of employment. Cooperation is aiding in a manner that is encouraging and valuable. Men who are required by lack of orders in factories, to temporarily seek employment elsewhere are being taken care of in large numbers by the response obtained to the appeal for the prosecution of outdoor improvements immediately.

Those who thus aid are building for the future, not only in the matter of the improvements they make, but along the line of preventing the necessity of Lima people going elsewhere for employment. Despite the reluctance of building materials to come down in price, big improvements are planned and much new construction is assured. It is believed that greater progress in building and general outdoor improvement will be made in Lima the coming season than for several years past.

## JOHN BURROUGHS

IN the passing from this temporal existence of John Burroughs, naturalist and philosopher, the world has sustained a real loss. This kindly man, having attained an age that placed him in the nonagenarian class, was nearing the beginning of the eighty-fourth milestone and was speeding eastward to his home from California, where he spent the winter, when the icy hand of death was laid on his brow.

He was looking forward to his next birthday anniversary, April 3, which he was to celebrate with old friends, Henry Ford, H. S. Firestone and Thomas Edison. The event was to have taken place at his home in Floral Park, near Poughkeepsie, N. Y.

In addition to his fame as a naturalist, John Burroughs was an essayist and critic. The unconventional in writing and nature appealed most strongly to him. He was a close friend of Theodore Roosevelt and these two often enjoyed visits to the woods and fields. During the past several years he spent most of his summers camping with Thomas Edison and Henry Ford.

Walt Whitman and Matthew Arnold wielded a strong influence over Burroughs. As a writer, Burroughs attained no small amount of fame and his works grace the shelves of many libraries and have prominent place in valued private collections of books. John Burroughs contributed much to the world's progress.

## DOING A GOOD WORK

IT is only proper to pause for a moment to speak a word of praise for the splendid work that is being done by the Social Service Bureau of the Chamber of Commerce in receiving applications from persons out of employment and endeavoring to bring employers and employees together, for mutual advantage.

While at the present time it is impossible to find positions for all who apply, there is every good reason to believe that this state of affairs will not long obtain and that within a short time jobs will be seeking men, instead of men seeking jobs.

## TODAY'S HEALTH HINTS—BY DR. WM. BRADY

**TAPEWORMS** run from fifteen to twenty feet long, and in this country, they come from eating rare or insufficiently cooked beef that is "measly" and fresh. The "measles" in such beef are the larval forms of the tapeworm in the animal's flesh, and these die if the meat is kept over three weeks in cold storage. Proper meat inspection does away with the danger, but in this country much of the meat marketed has never been inspected. The "measles" in the meat are very small and might easily escape the notice of one not expert in detecting the condition. In the intestine of man the larva develops into the adult tapeworm, and fixes itself at the head to the intestinal wall, by means of suckers. The tapeworm does not, as is commonly supposed, dispute with the

host for the greater share of the food in the host's digestive tract. Nor is emaciation at all characteristic of tapeworm infestation; most actual hosts of this parasite are too stout, being abnormally heavy eaters and often somewhat cannibalistic in their taste for raw or rare meat. An enormous appetite with an emaciated or skinny body suggests tapeworm only to the victim of folklore or quack doctor bait.

Beginning with the head which is not larger than the head of a pin, the succeeding links or segments of oblong shape, yellowish, flattened, increase in size until they are perhaps an inch wide and an inch long. As a rule the presence of tapeworm causes no disturbance of health, in child or adult. Sometimes there may be vague abdominal pains, nausea, diarrhoeal attacks and obstinate anemia. Only the finding of

some of the characteristic segments in the intestinal discharges, or the tapeworm eggs by microscopic examination, would warrant a diagnosis of the presence of tapeworm. Treatment for the removal of tapeworm requires the administration of remedies which are too poisonous for any one other than the physician to undertake to give. Blindness has been caused by the ill-advised use of such medicines.

Cattle infest the segments or the eggs when their food is contaminated directly or indirectly by human excreta containing segments or eggs. From the intestine of the cow and embryos hatched from the eggs there penetrate into the flesh of the animal, also into the liver, brain and other organs, and come to rest there as "bladder worms." These are larger than a raisin seed. The animal seems to show no ill effect.

### FEET

I got a cawlick, an' it stands  
Up straight, an' I got dirty hands,  
An' if it shows a single speck  
I have to go an' wash my neck,  
An' every day Ma squints an' peers  
To see if I have washed my ears;  
But I ain't ever really neat  
All on account of havin' feet.

These feet of mine are always wrong,  
I musn't shuffle 'em along  
Or kick a stone that's in the way,  
Or if I do someone will say:  
"I wish you'd lift your feet a bit,  
The way you walk gives me a fit!  
These shoes were new a week ago  
An' now you've busted out a toe."

They're always peckin' at me, too,  
For standin' like the fellers do,  
An' just because my toes turn in,  
The teacher makes the pupils grin.  
By tellin' me ten times a day:  
"Please turn your toes the other way!"

way!"  
An' even when I'm in my seat  
She kicks if I just swing my feet.  
If I get nervous an' I put  
One shoe upon the other foot,  
Or scrape the floor, they say: "My  
land!  
Is that the way a boy should stand?"  
An' if I rest 'em on a chair,  
Ma says: "Don't put your feet up  
there!"  
An' if I sit on them they roar:  
"Please put your feet upon the  
floor!"

I'm gettin' tired of all this talk  
About the way I stand and walk,  
An' anyhow it seems to me,  
At least as far as I can see,  
My feet aren't any different than  
The other fellers round her,  
Some day my temper will explode—  
It ain't my fault I'm pigeon-toed.

# TRUTH ABOUT HUSBANDS IS TOLD AGAIN

Arthur Wing Pinero's Play, Under  
a New Name, is an En-  
thralling Little Drama

"Adam and Eve" Comes to the  
Faurot Stage Saturday—  
Film Directory

(By ESTHER WAGNER)

ARTHUR Wing Pinero's play,  
"The Profligate," forms the  
base for a most enthralling lit-  
tle drama, which in its picturized  
version is "The Truth About Hus-  
bands." They must change the title,  
you know.

You want to know the truth about  
men? Well, if we are to believe this  
little picture, they grow up like the  
lilies with their feet in the mire,  
and there are none of them wholly  
pure—no, not one. Give the old  
fears their fling and in due time  
they settle down to trot dependably  
in double harness, shying at nothing  
but their black old pasts, which oc-  
casionally spring up to shadow them.

It seems to me that the picture  
could have been better still had the  
vicious omitted much of the fancy  
stuff. For instance, a vision of fate  
to drive the girl to the home of the  
man who had wronged her; the pro-  
longed deathbed scene that consumes  
twice as much time as it ought; the  
ghostly death floating in to take  
the girl to the land of the beyond,  
the while the girl looks back in the  
lost of spirits, watching those who  
had led her grief their hearts  
away. All that sob stuff, you will  
agree is superfluous.

The story as a whole is a good  
one and intimately concerns Janet  
Preece played by Anna Lehr, who  
is the estranged girl in the case. Les-  
lie Brownell, the girl whom the be-  
trayer marries and who believes that  
her husband is an honorable man;  
the betrayer, played by H. E. Har-  
bert who tries to live down his past  
and make his little wife happy; and  
the brother of the betrayer's wife,  
who is in love with the girl he be-  
trays also boarding school girls,  
flavors flower girls, enemies, maids.

There's some beautiful scenery,  
and acting, fine photography and  
some pretty women in this picture.  
I'll unless the one fault with the  
production, which I gave above, car-  
ries in weight with you, I hardly  
think you'll regret the time and  
money spent in seeing it.

The Regent theatre is featuring the  
production, "The Truth About Hus-  
bands."

## NOTES FROM STUDIES

Once upon a time a girl won a  
beauty contest at the New Orleans  
Mardi Gras.

A movie company signed her and  
shortly after made a star of her. No,  
this is not a fairy story. The girl  
is Corinne Griffith who is a star for  
Vitagraph.

Leatrice Joy is to be the heroine  
of "The Ace of Hearts," a Govern-  
ment Morris original scenario, soon  
to be filmed at Culver City.

Have you voted yet?  
If you haven't, now is the time to  
do so, as the chances of your fa-  
vorite among the ten named in the  
local beauty contest depends entire-  
ly upon you. The race is becoming  
doubly interesting, with little Marie  
Hildebrand still in the lead, and  
Miss Donna Bowers closely follow-  
ing.

The ballots are procurable in the  
lobby at the Sigma theatre. At the  
end of the week, the three girls hav-  
ing the highest number of votes will  
be entered in the national beauty  
contest being conducted by Thomas  
H. Ince, who is in search of a new  
type of star.

Remember, some of our most fa-  
mous stars got into the game thru  
a contest. Corinne Griffith is one of  
them. Be sure and vote for your  
favorite before Saturday, as the fi-  
nal count will be made on that day.  
Here are the standings of the con-

## INGROWN NAIL

Toe Nail Turns Out Itself if You  
Toughen Skin

A noted authority says that a few  
drops of "Outgro" upon the skin sur-  
rounding the ingrowing nail reduces  
inflammation and pain and so toughens  
the tender sensitive skin under-  
neath the toe nail, that it can not  
penetrate the flesh, and the nail  
turns naturally outward almost over-  
night.

"Outgro" is a harmless, antiseptic  
manufactured for chiropodists. How-  
ever, anyone can buy from the drug  
store a tiny bottle containing direc-  
tions.—Adv.

## "THE TRUTH ABOUT HUSBANDS"

What women learn about men after marriage—not before.

The Double Standard? Not in this picture!

The Truth; the whole Truth, and nothing but the Truth. Ask  
husbands.

For nearly every man there's a wife. . . and a woman weep-  
ing. Do you believe that? Wives can't answer. They don't know.  
But "The Truth About Husbands" reveals a declamatory "Yes!"

Something worth talking about! The truths of "The Truth  
About Husbands."

Where are our husbands? What WERE our husbands?

At last a drama that doesn't blame the woman.

It tells what many wives are almost afraid to know.

Does marriage mean to a man the end of just a brief interval in a  
career of dissipation?

## DIVORCE!

Is Tendency Handed Down from Mother to Daughter?

(By MARGERY REX)

NEW YORK.—(Special)—Many mothers leave their daughters an inheritance of beauty and charm. Others bequeath jewels and old lace. Some women relinquish wealth to their daughters, some a proud name. Is it possible for the tendency to divorce to be left as an inheritance from mother to daughter?

The story of the Stillmans is now common property. As prologue to the unhappy drama is the life story of the beautiful and accomplished mother of Mrs. Anne Urquhart Stillman. She is Cora Brown Potter, divorced by a stern husband who did not approve of her espousal of a stage career.

Now "Pitt" her daughter, is undergoing much the same experience, except that James A. Stillman makes charges of a nature entirely different than those upon which the Potter divorce was secured—in that case abandonment.

Tendencies run thru families. Even divorce would appear to be inherited if one were to judge by some noted examples of family groups in which marital happiness seems impossible to achieve.

DISPOSITION CAN BE INHERITED

While the actual desire to divorce would not, of course, be inherited, nevertheless the disposition of character that would demand freedom from an unpleasant situation could be transmitted from parent to child.

We know that certain diseases which are supposed by many to be "inherited" positively cannot be handed down from parent to offspring.

But a predisposition can be transmitted from a mother to offspring. People may say, for instance, that in such and such a family they have all "inherited" a certain malady, but the fact probably is that from one or other parent the children have received a tendency to develop such a disease, and perhaps living in such conditions as fostered the disease in the parent, have themselves acquired it.

It is quite likely that a tendency to social disease, divorce for example, might be present as well as the disposition to develop a bodily ill.

POWERFUL FORCE OF EXAMPLE

A proud and independent spirit which would make a mother break away from marital bondage, when likewise, might be transmitted to a daughter. The daughter, in turn, might find life so unpleasant with her husband that her high-strung

American club, of which Miss Chloé Agner is president, Miss Marjorie Hurlburt secretary and Miss Mary Wilson treasurer, enjoyed a most delightful banquet at the Trinity church Monday evening. More than 80 were present. Following the banquet Miss Lou King gave an interesting talk on "Oriental Religions in America." Miss Eva Keach favored with a reading "Putting the Flag in Your Heart" and Miss Effie Hunt sang several selections. Miss Frances Kellstedt gave an address on the "National Field Secretary of Young People's Work in W. H. M. S." Twenty seven new members were admitted.

Mrs. H. O. Bentley welcomed the members of the Monday Knitting club at her home on Lakewood-ave Wednesday. Members decided to make 300 chair covers and 100 table covers which will be rented to anyone entertaining, the proceeds of which will be used in philanthropic work. At the conclusion of an afternoon of bridge in which Mrs. Fred Beam held high score, the hostess served a dainty repast.

## HIGHEST NOTE IN MUSIC SUNG

BY 14-YEAR-OLD DENVER GIRL

Child Amazes Critics with Rendition of Second "F" Above "High C"

DENVER.—(Special)—That a potential prima donna and grand opera star has been discovered here in pretty fourteen-year-old Lou Milton is the belief of several prominent Denver musical tutors who have had the young prodigy under observation. The girl has amazed professional teachers who have listened to her remarkable voice recently. It is declared that she is known to have pitched her voice to the second "f" above "high c"—the highest note ever recorded by a human vocal chord.

The highest previously recorded note was that attained last Fall by twelve-year-old Robert Murray, of Tacoma, Wash., who sang before Metropolitan Opera stars in New York and reached the note "c" one octave above "high c."

The note achieved by the sparkling Denver miss is one-half an octave above that sounded by the Tacoma boy, and a full octave above the range climax of Mabel Garrison, who is said to have the highest range of any living prima donna. Little Miss Milton's voice is declared to possess a continuous range of four octaves. The Denver marvel is a beautiful,

nature would prompt her to get a divorce or, in the event of her leaving such a husband, might cause him to divorce her.

Added to such a spirited nature there would be one of the greatest forces in the world, the force of example.

The mother's example will always impel a daughter. In a moment of doubt she will be very apt to do as her mother has done in a like quandary.

Daughters of divorcees, deep in marriage difficulties, will be likely to decide upon divorce themselves.

The "Fashionable Frenchs," of New York and Newport, exemplify one case in which a mother who was divorced had two divorced daughters, a divorced aunt, and numerous other matrimonial complications thruout various branches of her family.

Mrs. LeRoy French in 1914 divorced Amos Tuck French. Mrs. Julia French Geraghty, one of her daughters, in 1919 divorced Jack Geraghty, her chauffeur husband. Mrs. Polly French Wagstaff, known as the beautiful Pauline LeRoy French, divorced Samuel Wagstaff in June, 1920.

On March 11 last Mrs. Wagstaff was married to Donald Oliver McEae, a clerk employed by the Central Trust Company, five years her junior.

But the first of the French family

## THIS WIFE MORE M

By SUSIE SMA

Dear Miss Smart: A coming to you for a solution to my problem. We have two children, a boy aged nine and a girl seven. My husband has averaged \$20 a week all winter. I have a roomer who pays me \$12 for board and washing. Besides the \$4.25 my husband has given me \$10 all month (which I have to ask for). He expects me to keep the five of us, pay our school expenses such as insurance, also with the gas, on \$28 a month. I never get out any money for myself. I never ask my husband for anything.

YOU certainly have an overwhelming problem, a family of five on \$28 a month. If your husband does not realize you perform.

You are making a great mistake in not able to manage on so small a sum. You and inconsiderate. Your husband is the p. Each of you must fulfill your part greatly in the performance of his obligation.

Your husband is probably not selfish, but not realize the high price of food and clothing cannot manage on the small amount which of a responsibility and will in time ruin your situation. You say that you do not ask your husband money. That is very good and consider in your particular case it would be wise to money. His income is very good and he estly with his wife and children.

I think it would be wise if you kept of all your expenditures and let your husband days.

Dear Miss Smart:

(1) Will you please tell me how to make an egg shampoo? (2) Will you please tell me the truth, are you married and how old are you? (3) Do you think there will be any more wars between U. S. and Germany? (4) What ever made you choose the position you have at the present time? (5) Would you ever take a red headed woman for your wife?

vivacious child of fourteen. She lives with her parents at 3400 Federal Boulevard, and attends the eighth grade in the Columbian public school. Her wise manner and eager willingness to participate in school entertainments have won her much popularity, and teachers at the school predict a successful career in the realm of music for the dainty miss.

BAILEY-HUN ROMANCE SHATTERED

Then came little Ethel Huhn's romance. Joseph W. Bailey, Jr., in a training camp met Ethel not long ago when she was a debutante. Bailey was the son of a former Senator from Texas. The affair was called a "perfect story book romance."

Two were married, but last Fall it was rumored that the young people had separated and that a divorce action would be begun.

Family heartburnings and money wrangles are said to have separated the parents of pretty Ethel.

In a family that has never known the pangs of legal rending apart that constitutes divorce it seems a strange and terrible thing. It looms up as a devastating, scandalous affair, something to make every member of the family to hang his or her head in shame.

# FIGHT TO BE STAGED BY LEGION HERE ON APRIL 11

The Lima post of the American Legion will stage a boxing carnival at Memorial Hall Monday, April 11.

Such was the unexpected announcement made Thursday by Charley McCauley, the Legion fight promoter, after the boxing commission sanctioned the card, and the forfeits of the fighters were posted.

The card is one which surpasses any staged here in recent months, headed by Joe Sullivan, former sparring partner of Jess Willard, and Gabe Gulhart, the Pacific coast heavyweight champion.

Sullivan's contract arrived late Wednesday from his training quarters in Philadelphia, Pa.

The bout was arranged when it became known that Gulhart could appear here April 11, while enroute from his home in Seattle, Wash., to New York, where he is scheduled to meet Fred Fulton two weeks later.

Boxing fans may well consider this an opportunity which many cities twice the size of Lima would be pleased to schedule.

**TURNER ON CARD**  
"Big Iron" Turner, Lima's coming middleweight, is slated to fight Wilbur Stanley, of Sidney, in the semifinals.

Stanley is a sparring partner of Hope Mullien, and is managed by W. K. Steinhilber.

Good, fast preliminaries are being arranged, according to McCauley.

**PRICES ARE REDUCED**  
A feature of this exhibition will be the reduction in the price of seats, which McCauley considers will enable more men to attend with wages being cut, and so many out of employment at the present.

Ringside seats that formerly sold for \$3.50 will sell for \$2.75. Lower floor prices will be \$1.85.

## DEMPSEY NOT TO GO INTO CAMP SOON

(By Henry L. Farrell)

United Press Staff Correspondent  
NEW YORK — Jack Dempsey will not start training for the big battle until the middle of May, according to Jack Kearns, his manager.

The champion will continue doing theatrical work, with a little light training on the side, until six weeks before he meets Carpenter.

**IS IN GOOD SHAPE**

"Dempsey won't need a lot of work, as he's been keeping himself on edge ever since he whipped Willard," Kearns said here today.

"We made a big mistake getting ready for that bout with Bill Brennan. Dempsey started too soon and the bout was postponed several times so that we were really getting ready for three months.

**LEARN GOOD LESSON**  
"The champion left himself in the dressing room that night, but we learned a good lesson.

"We can't always tell but that this big fight may have to be postponed at the last minute, requiring more training and we don't want to go into the ring against that Frenchman state."

Carpenter will not engage in any long training either. The Frenchman will not arrive in this country until the middle of May and it seems probable that he and Dempsey will pitch training tents at about the same time.

# IT'S UP TO YOU, BERNIE---WHAT ABOUT IT?

By BILL BARLOW  
(Sporting Editor of The News)

Efforts to organize a baseball team in Lima are not materializing, even after it is definitely understood thru reliable sources that it is utterly impossible to start a league so late in the season.

Fans here have turned their eyes to Bernie Halloran, awaiting to hear what steps he is going to take to give Lima baseball again this year.

At present Halloran is in Buffalo, N. Y., where he bowled in the National American Bowling Congress tournament with the Lima Capitol City five. He will return to Lima late today or Friday

morning, when it is understood that a group of anxious fans will visit him in the interest of professional ball for Lima, to get his opinion on the status of affairs and see whether he is going to pilot a team this season.

Recently Halloran stated that he is ready to give the fans of Lima the kind of baseball they wanted—-independent or league.

Since league ideas have apparently been abandoned, it looks as if it is left to Halloran to go ahead and organize a really good independent team.

It is known that Halloran does not oppose

either league or independent baseball. He has been going slow, waiting to see what transpired in the way of pushing thru some sort of a league.

Now that League thoughts have vanished, fans are doubly anxious to get Halloran started to talk so something definite can be known.

With the scarcity of worthy players, it will take over a month to get a team formed—let alone a few practice games to start the season.

If Halloran would get busy immediately, it would probably be the middle of May before games could be played here.

## DOWNEY WINS DECISION OF JUDGES

CLEVELAND — Bryan Downey, Columbus middleweight, won the judges' decision in a 12-round bout here last night with Young Fisher, Syracuse, N. Y. Downey scored a knockdown in the second round when he floored Fisher for the count of six. Downey won eight rounds. Fisher three and one was even.

It was the first decision fight here for years.

Eddie Mahoney, Chicago lightweight, lost to Chubby Brown, Rochester, and Al Corbett, Cleveland, won from Joe Baker, Syracuse, in the preliminaries.

## THERE'S PLENTY OF ACTION HERE

Five of the Cambridge hurdlers going over the hurdles together. Note that not one of the five men has a foot on the ground.

There's nothing prettier in athletics than the graceful form of a crack hurdler "taking" the hurdles in a nip and tuck race. This photo, taken recently at the Cambridge varsity sports game in Fenners, England, shows L. F. Partridge (the leader) winning one of the hurdle events in record time.

## LATEST SPORT BRIEFS

CHICAGO — The White Sox faced their first real opposition on their training trip last night, losing to the Fort Worth, Texas, team 4 to 1.

Davenport, recruit pitcher, walked seven men.

AUGUSTA, Ga. — Claude Derrick, shortstop of the Toledo American Association club, who recently informed Manager Bresnahan that he intended to quit baseball, will join the club at one, it is announced.

NEW YORK — "Goldie" Rapp, New York National infielder, ill in a New Orleans hospital for several days, has rejoined the team at Mobile, Ala.

HAVANA, Cuba. — Jose R. Capablanca defeated Dr. Emanuel Lasker last night in the fifth game of their series for the world chess championship. Play will be resumed tonight.

NEW YORK — Frank Baker, former home run king, returned to regular work with the Yankees in the game with Shreveport yesterday, and sent Bob Meusel across the plate with the winning run by banging out a two bagger in the eighth inning.

BOSTON — After losing two games to the Memphis team of the Southern Association, the Boston Americans are in Jackson, Tenn., today, where they will line up against the second team.

## MAJOR LEAGUE CLUB OWNERS ATTACKED BY BAN JOHNSON

CLEVELAND — Major league club owners who have not honestly enforced the anti-gambling rule of the major leagues will be named within the "next few weeks," according to Ban B. Johnson, president of the American League.

Johnson made this statement following a speech he delivered here last night before the Cleveland Recreation Council on "How to Keep Baseball Clean."

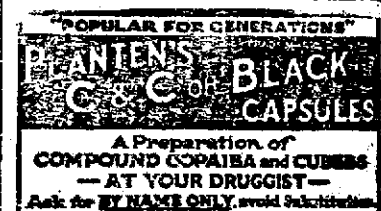

During his speech he had said that the anti-gambling rule "has not been honestly enforced at some of the grounds of the major league clubs, but a day of reckoning is at hand for those who are derelict in this grave duty."

When asked after his speech to name the magnates he had in mind, Johnson replied: "Oh, don't worry. It will all come out in the next few weeks. State's Attorney Crowe, of Chicago, is going to 'rock bottom' in this new investigation into the world series scandal of 1919. The lid is coming off. We intend to go right to the bottom of everything in baseball."

**REFERS TO INDICTMENTS**  
In this Johnson referred to the indictments recently returned against players and alleged gamblers in connection with the disclosed "fixing" of the 1919 world's series between Chicago and Cincinnati.

"There has been an honest endeavor and commendable effort," Johnson said in his speech, "on the part of some to keep the sport free from rowdism and kindred evils. Moral courage has been lacking in instances and others have conceived the false notion of covering up when there should have been public investigation and wide publicity."

**VIEW WITH PITY**  
"We can only view with contempt and pity those, who for 20 years and more have obtained a rich livelihood in baseball and failed to disclose to the proper authorities what informa-

## CHAMPION THROWS LOU TALIBER

CHICAGO — Johnny Meyers, middleweight wrestling champion of the world, threw Lou Taliber of Chicago, in two out of three falls, last night.

## WESTERN TEAM IS BEATEN BY CUBS

SAN FRANCISCO — The Cubs beat the San Francisco club here yesterday 7 to 3. They play Oakland today.

Mrs. H. A. Leonard, Sturgis, Colo., writes: "I suffered with bladder and kidney trouble for years. Doctors and tried everything. No help. Finally a friend sent me Foley's Kidney Pills. They helped me so much I used 7 bottles. Now I feel fine. Spent sleepless nights. Suffered so it seemed I hardly could live. Recommend Foley's Kidney Pills to all who suffer from kidney trouble as I did."—Chas. J. Vorkamp, Main and McKibben streets.—Adv.

## SHORT SHAVINGS

"Mrs. Blueblood brags about her ancestors, but I don't believe they amounted to much—they couldn't afford to keep servants."

"How do you know that?"

"Mrs. Blueblood showed me a set of dishes that she said had been in the family for more than a hundred years."

"Dabbs is going to start a matrimonial agency."

"What got him going that way?"

"Says he can see great possibilities in that business now that photographs can be sent by wire."

## SPRING IS COMING—TAKE GUDE'S PEPTO-MANGAN

Thousands of People Take it Every Spring to Regain Health and Fight Illness

MAKES BLOOD RICH AND RED

Helps to Build Up the Entire Human System With Life-Giving Oxygen

In the Springtime, after a winter sickness or long days spent indoors, the blood becomes clogged with waste matter. The little red corpuscles in your blood become inferior. They do not absorb enough oxygen when they pass through the lungs. The tiny cells, without of them, miss the nourishing effect of the oxygen, and faces become pale, bodies weak.

If you feel out of sorts, cranky, tired out most of the time, it is probably because your blood is weak. If you have no other disease pulling you down, you can be pretty sure your blood is weak and you need the help that Gude's Pepto-Mangan, the well known Spring blood tonic, gives.

Gude's Pepto-Mangan makes rich red blood and puts new life into the red corpuscles. If you are anemic (a thin-blooded condition) Gude's Pepto-Mangan will restore the right number of red corpuscles. You will notice a general improvement, better appetite, more restful sleep, better complexion, wide-open clear eyes. Get Gude's Pepto-Mangan at your druggist's. He has it in liquid and tablet form. It makes no difference which you take, because the tablets and the liquid form both have the same medicinal value. Get the Genuine Gude's Pepto-Mangan with the full name, "Gude's Pepto-Mangan," printed on the package.—Adv.

# "ONE" Call for Charity Instead of "NINE" The Object of the Community Fund

TO MOTHER the motherless, to father the fatherless, to feed the hungry and needy and to clothe the naked; to care for those who are unable to care for themselves; to lend a helping hand to the weak; to bring the glow of health to pallid cheeks of anaemic children; to bring the shut-ins into blessed sunshine of camp and fresh air farm; to provide nurseries and homes for children of all races, colors and creeds; to supervise or to eliminate places and conditions that breed delinquency; to give needed assistance to mentally deficient school children; to direct the physical, religious and educational activities of boys; to furnish legal aid, medical care, nursing and guidance to those who cannot furnish these things for themselves; to reclaim the fallen and to prevent the erring from sinking deeper; to combat Tuberculosis and to conduct clinics for the care of men, women and children; to supply ice in the summer and coal in the winter to those who feel the pinch of poverty; to improve the conditions of working girls and make American citizens of Immigrants,—this is the function of the Lima Welfare Council. It is to this work that we invite your attention and solicit your support.
